## COMBINING THE BEST PEOPLE, PROCESSES & PERFORMANCE

Whatever your business needs or objectives, ASPEO will deliver the knowledge and expertise you need throughout the entire project lifecycle. ASPEO offers services in the following areas:

### APPLICATION DEVELOPMENT

ASPEO provides a full range of onsite, offsite and offshore custom software development services along with IT development outsourcing. We develop feature-rich business applications based on open industry standards. We enable

your organization to reach new levels of business performance that combine the right balance of speed, quality and cost for your specific needs.

### ENTERPRISE INTEGRATION

ASPEO's Enterprise Integration service integrates data and applications for companies to deliver fully functional business solutions. We blend our best-of-breed tools, standardized processes and skilled resources in enterprise architecture and application integration to help organizations leverage information for optimal business value.

### TESTING SERVICES

Testing and validating critical applications is vital to effective operations in an "always on" world. ASPEO delivers the right mix of onshore and offshore testing with quality assurance. Working with ASPEO ensures predictable and improved software quality while reducing time and expense. Our Testing Services offer

true, independent verification and validation along with the assurance that defects will be identified as early as possible and that testing is an integrated part of the software development lifecycle.

### STAFF AUGMENTATION

In today's IT environment, successful project development and implementation is challenging. Aggressive design and implementation schedules can be overwhelming and beyond your staff's bandwidth. Complex corporate missions can arise and consume too much time. Staff turnover can impact production. ASPEO's expert on-site consulting and staff augmentation services will mitigate risks while controlling costs. Our experts will ramp up to meet any IT or software development challenge rapidly and efficiently.

### DOCUMENT MANAGEMENT

When you choose ASPEO's services you benefit from our breadth of content and document management experience. By tapping our broad capabilities you receive an end-to-end solution, including consulting, developing, supporting and hosting. Your newly integrated process will allow you to manage all types of content from creation to distribution, and provide a platform for growth and development regardless of underlying technologies.

## RIGHTCHOICE™ PROJECT OUTSOURCING

Outsourcing with ASPEO makes fiscal sense for large and mid-sized companies. Through our Global Development Facility in Eastern Europe, you'll have access to a vast pool of highly educated, technical and functional experts in all current and legacy technologies. At the same time, our U.S. headquarters facility provides you with continuous updates, improved project communication and a local presence to respond immediately to any change or request.

And with our adherence to software quality management (SQM) standards and best software practices, as well as our rigorous testing methodology, you can be sure that outsourcing your software development does not mean sacrificing quality.
