

STAFF AUGMENTATION

Successful project development and implementation can be challenging in a rapidly changing business climate. Aggressive design and implementation schedules might be overwhelming and beyond your staff's bandwidth. Complex corporate missions can arise and be time consuming. Staff turnover can impact production. ASPEO's expert on-site consulting and staff augmentation services will mitigate risks while controlling costs. Our experts can ramp up to meet any IT or software development challenge rapidly and efficiently.

That's where we can make a real difference. With our RightSource™ Staff Augmentation Services, you will receive expert assistance with project management, custom application design and development, quality assurance, system administration, network and interface issues, and rollout assistance. ASPEO's Staff Augmentation Service is there when you need us.

ASPEO's RightSource™ Staff Augmentation Service has highly-skilled and trained talent with substantial technical, field and industry experience.

RAPID. RESPONSIVE. RESOLUTE.

Choosing ASPEO's Staff Augmentation Service gives you rapid response, experience, service quality and significantly reduced short- and long-term costs. With our Global Delivery model, expertise is drawn from the most appropriate and cost-efficient location. Another important reason to choose ASPEO is our breadth of skills. We have proven processes and expertise in:

- Major Databases
- Enterprise Applications
- Content & Document Management Applications
- Packaged Applications from Leading ISVs
- Web and Legacy Languages
- Mainframe Transaction Processing
- Middleware and Groupware
- Major Operating Systems
- Web Technologies
- Testing Tools and Services

STAFF AUGMENTATION

HIGHLY SKILLED RESOURCES AND SUBSTANTIAL EXPERIENCE

Perhaps you need a knowledgeable software development staff to ramp up quickly for a long-term project. Or maybe you need a single IT expert to fill a short-term gap. ASPEO's RightSource™ Staff Augmentation Service has highly skilled resources with substantial technical, field and industry experience.

Our proven method quickly matches your specific IT staffing need with the best candidates. We offer four levels of experience, each with a specialized set of skills:

- **PROJECT MANAGERS**
Direct activities in all project phases, from identifying initial needs through contract closeout.
- **SYSTEM ARCHITECTS**
Consult on enterprise-wide technical projects, providing expertise to customer development teams.
- **APPLICATION DEVELOPERS**
Provide custom application development.
- **SYSTEM CONSULTANTS**
Offer product support, consultation on straightforward designs, program development, walkthroughs, quality assurance, documentation, testing, training and management of non-complex projects.
